a) Purpose of the processing

Your data will be processed for:

- 1) administrative and accounting management, fulfillment of contractual and legal obligations related to civil law, tax accounting; management of any litigation;

c) Nature of the provision of data

The provision of data is necessary in order to provide the required service and supply and to fulfill legal obligations related to the management of the existing relationship. The legal basis for the data provision is, in this case, the relationship between the existing parties. For what concerns the purposes indicated in point 2) of the previous letter a), however, the provision of data is purely optional and their processing will take place only following an explicit consent of the interested party, that, in fact, constitutes the legal basis of the processing in question. The absence of consent to these purposes will not affect the provision of services.

d) Data communication

The data may be communicated, in whole or in part where necessary and in any case for the purposes of the processing in question, to:

- subjects to whom such communication must be submitted in fulfillment of an obligation established by law, by a regulation or by EU legislation;
- external structures/companies responsible for the activities connected with or resulting from the execution of the given provisions or for the provision of the requested services;
- credit institutions for payment orders or other financial assets instrumental to the execution of the service.

The subjects belonging to the aforementioned categories perform the function of Data Processor (all of whom have been appointed for this purpose under Article 28 of the EU Reg. 679/2016), or operate in complete autonomy as separate Data Controllers.

The personnel specifically appointed can acquire the provided data, in relation to the assigned duties.
